COUNCIL OFFICES,  
CLAYTON-LE-MOORS.  
1962.

**To the Chairman and Members of the  
URBAN DISTRICT COUNCIL OF CLAYTON-LE-MOORS**

MR. CHAIRMAN AND GENTLEMEN,

I have the honour to present my report on the health of the District for the year 1961.

It will be seen that infant mortality and still births were at a record low level, and the total death rate only 14%. These are very satisfactory figures, but in view of the relatively small actual numbers involved their significance must not be exaggerated. It is also very good to record a year with no fatal motor vehicle accidents ; and not a single death due to tuberculosis. The only infectious disease of any prevalence was Sonne Dysentery, troublesome but not dangerous.

Thirty-eight new houses in a town of this size is a notable advance.

Once again I thank the Clerk of the Authority, and Mr. Bailey for their unfailing help throughout the year, and yourself Mr. Chairman and the Committee for consideration and support.

Your obedient servant,

R. C. WEBSTER,

Medical Officer of Health.

## **GENERAL PROVISION OF HEALTH SERVICES IN THE AREA, 1961**

---

### **Ambulance Facilities**

These are provided by the Lancashire County Council.

### **Nursing**

The Home Nursing Service is provided by the Lancashire County Council.

### **Domestic Help Service**

The County Council provides this : the Home Helps are engaged on an hourly basis and are available for maternity cases and cases of illness.

### **Maternity and Child Welfare**

This service is administered by the Lancashire County Council. Infant Welfare Clinics were continued weekly, Ante and Post-Natal Clinics are now held on alternate weeks. The help of the ladies on the voluntary committee at the Infant Welfare Clinic is again gratefully acknowledged.

### **Day Nursery**

This service is administered by the Divisional Health Authority, Accrington. The nursery was opened on the 9th February, 1953, and is capable of providing all necessary facilities and accommodation for 50 children. The staff consists of 1 Matron and 5 Assistants and charges are made according to the financial circumstances of parents seeking admission for their children, the maximum being 6/- per day, per child, with a proviso that any second child, etc., is only charged at the rate of 3/- per day.

### **School Medical Inspection**

The school medical service is provided by the County Council. Medical Inspection was carried out by the Medical Officers of the County Council.

The School Clinics continued as usual at Rishton comprising Minor Ailments, Orthopaedic, Ophthalmic and Dental Clinics.

Immunisation Clinics were held regularly at the Welfare Centre.

### **Hospitals**

No Hospitals or Registered Nursing Homes existed within the Urban District.

### **Health Education**

The services outlined above are available to all and are, generally speaking, well used. Efforts are made to secure a wider use of the Health Services by the personal recommendation of the Medical Officer, Health Visitors, School Teachers and others. Posters are exhibited at the Town Hall, Welfare Centre, Clinics, and in the Schools.

## SANITARY CIRCUMSTANCES OF THE AREA

### Water Supply

The Accrington District Water Board undertake this service and make the necessary tests of the quality of the water. The supply was constant and sufficient as every house is served, no extension of piped supplies has been required. The conversion, as time goes on, of waste water to fresh water closets will, however, increase the water needs of the district.

### Drainage and Sewage

This service is undertaken by the Clayton-le-Moors and Great Harwood Joint Sewerage Board, and extends to all premises save a few isolated farms. Periodical testing and flushing was carried out.

Scavenging is carried out by the Health Department of the Local Authority.

Further details regarding Sanitary circumstances, Housing and Inspection and Supervision of Food, are contained in the report of the Public Health Inspector.

## INFECTIOUS DISEASES

The following table shows the number of new cases of tuberculosis notified during the year 1961 and the number of deaths from the disease which occurred in the various age groups.

## PREVENTION OF DAMAGE BY PESTS ACT, 1949

The Council employs a part time Rodent Operator and all complaints are fully investigated. The rodent control methods used by the Authority are in accordance with those recommended by the Ministry of Agriculture, Fisheries and Food. Systematic inspection and disinfestation of surface properties for rats and mice were continued during the year, and the bi-annual treatment of the sewers and manholes has had a considerable effect in reducing infestations both in the sewers and surface properties, in addition, the refuse tip and river banks have been treated to control any possible infestations. During the year free treatment was again afforded to dwellings.

The following table gives a summary of the work done throughout the past year.
